Helpful Hints

- Decorate Sign Face before attaching to Base. Keep design simple for maximum impact.
- To transport, tip sign on side using handhold and hold from Spring.
- To add more tension between Sign Face and Spring Assembly move rod from Spring Assembly outward 1-2 flutes on Sign Face.
- Springer signs are designed for winds up to 30 mph. In the event of higher winds bring sign inside or add more water through the Ballast Port.

CAUTION!
